Education

JK Lakshmipat University

2021 - 2025

Bachelor of Technology (B.Tech) in Computer Science

Sv. Public School

2021

CBSE 12th

Projects

WhisperWave | MERN stack, Cloudinary, Socket.io, Redis

[Live Demo](#) [GitHub](#)

- Built a real-time chat application used by **100+** users, featuring live typing indicators, and read receipts.
- Optimized message retrieval and database load using a **Redis Lists** sliding window cache and **MongoDB** bucket pattern.
- Implemented end-to-end encryption for chats using **AES** and **HMAC-SHA256** to generate unique, chat-specific keys.
- Enabled peer-to-peer voice and video calling using **WebRTC**, alongside in-chat image sharing.
- Designed comprehensive group chat management features, including administrative controls for creating groups, deleting groups, managing member permissions, and assigning roles.

AetherBot | Next.js, TypeScript, Gemini API, Cloudinary, Zustand, Sandpack

[Live Demo](#) [GitHub](#)

- Developed a multimodal AI chat platform supporting real-time text streaming and direct document analysis.
- Built a TypeScript-based **streaming service** using a Pub/Sub pattern to bypass React re-renders.
- Engineered secure **Sandpack/JDoodle** code execution and dynamic chart rendering for AI-generated responses.
- Designed resilient **backend failover** and retry logic with automated model routing for API timeout handling.
- Added **Gemini Vision** support for real-time, context-aware chatting with uploaded images and PDFs.

Envision | MERN stack, TMDB API, Vidsrc API, Gemini API, Zustand

[Live Demo](#) [GitHub](#)

- Built a seamless online streaming platform for movies and TV shows.
- Created an AI search using **Google Gemini API** to recommend shows based on user watch-history and mood.
- Implemented automated **progress tracking** to categorize shows as "Completed" or "Dropped" based on watch time, alongside secure user **authentication** and **bookmarking**.

Experience

DailyObjects

Full-Stack Developer

Jan 2025 – Present

Gurgaon, Haryana, India

- Maintained and improved the company's e-commerce platform for better performance and UX.
- Developed and optimized **REST APIs** for scalability and efficiency.
- **Led** migration of the web app from **Angular 14 to 19**, rebuilding the project from scratch utilizing **SSR** capabilities.
- Implement several APIs keeping performance and scalability as the priority.

Tag 11. Softech. Pvt. Ltd

Full-Stack Intern

June 2023 – August 2023

Jaipur, Rajasthan, India

- Researched and applied scalable backend techniques to optimize overall system performance.
- Implemented scalable authentication flows using **JWT** and **session** strategies.

Skills

Technical skills:

- **Languages:** JavaScript, TypeScript, Java, C++
- **Frameworks/Libraries:** React.js, Next.js, Angular, Node.js, Express.js, Zustand, Framer Motion
- **Databases & Tools:** MongoDB, Redis, Git, Cloudinary, Postman
- **Real-Time & APIs:** Socket.io, WebRTC, WebSockets, REST APIs, JWT Authentication
